How to Find Your Heavenly Stem and Earthly Branch

- A. Find your birth year on the chart below.
- B. **In Feng Shui we use the Solar calendar which begins on February 4th or 5th rather than January 1st.** See if your birthday comes before or after the listed day and hour for that year to begin.
- C. If it comes *after* simply note your Heavenly Stem and/or Earthly Branch for your birth year.
- D. If it comes *before* (i.e. January 1st to Feb.4th or 5th) then your Heavenly Stem and/or Earthly Branch will be the Stem and Branch from the year before your actual birth year.

Example: If a person was born January 27th, 1925 (*before Feb.4 1925 at 3:37 p.m.*) their Heavenly Stem and Earthly Branch would be determined from the previous year (1924). **Jia** would be their Heavenly Stem and **Zi** would be their Earthly Branch.
